

*Report on the Storage Regulation
– state of play*

Vienna, 25 February 2018

Entered into the force for the Contracting Parties on **1 October 2022**

1. Amendments to Regulation (EU) 2017/1938

Storage filling targets and filling trajectories

- Determination of intermediary targets
- Measures to reach the targets
- Monitoring of filling targets / Reporting

Storage arrangements and burden-sharing mechanisms

2. Amendments to Regulation (EU) 715/2009

Certification of the storage system operators

Possible tariffs discount at entry/exit storage points

Intermediary targets for 2023 – state of play

The decision shall be based:

- On basis of the technical information and draft filling trajectory with intermediate targets submitted by each Contracting Party (No Contracting Party sent official data)
- On the average filling rate during the preceding five years
- On the basis of an assessment of the general security of the gas supply situation and the development of gas demand demand-supply in the Energy Community and individual Contracting Parties
- Taking into the assessment of the **Security of the Supply Coordination Group**

ECS adopted the decision on filling targets on 15 November 2022

Measures to reach intermediary targets?

Contracting Party	February 1 st	May 1 st	July 1 st	September 1 st
Serbia	50%	15%	45%	70%
Ukraine*	33%	23%	47%	58%

* the intermediate targets of the filling trajectory shall be reduced accordingly by 35% multiplier

Storage arrangements and burden-sharing mechanisms?

Article 17(a) of Regulation (EU) 2022/1032 defines the content of the report:

- (a) an overview of the measures taken by the Contracting Parties to fulfil the storage obligations,
- (b) an overview of the time needed for the certification procedure, set out in Article 3a of Regulation (EC) No 715/2009 as adapted and adopted by the Ministerial Council Decision 2011/02/MC-EnC
- (c) an overview of the measures requested by the Energy Community Secretariat in order to ensure compliance with the filling trajectories and the filling targets;
- (d) an analysis of the potential effects of this Regulation on gas prices and potential gas savings in relation to Article 6b(4).

Certification of storage system operators

Ukrtransgaz – case study

The background is a satellite-style image of Europe at night, with city lights visible. Overlaid on this are numerous glowing blue lines that represent energy transmission paths, connecting various points across the continent and extending outwards.
