

# The Adapted Governance Regulation – Reporting obligations, and progress of reporting

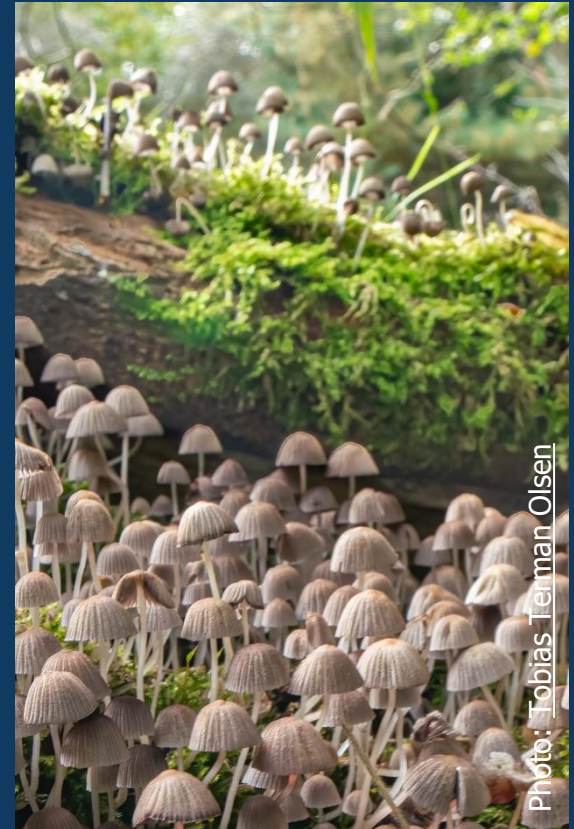

*Per Wretling*  
*European Environment Agency*

4<sup>th</sup> July 2023, Vienna  
Energy and Climate Technical Working Group - Climate

# Presentation agenda

- Reporting on the Adapted Governance Regulation
  - Process and Governance
  - What (& how) to report.
- Progress of reporting

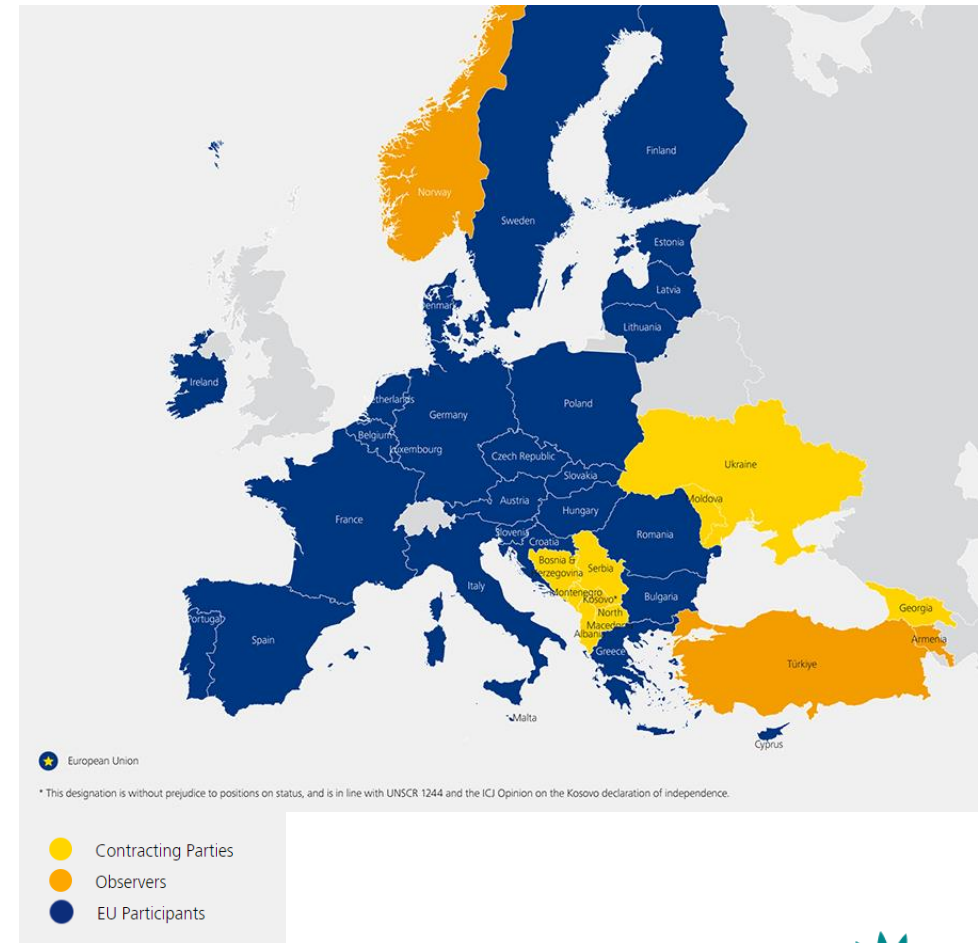

# Introducing the Governance Regulation

Governance Regulation 2018/1999, and its two Implementing Regulations 2020/1208 and 2022/2299

Monitoring Mechanism Decision (MMD), 2004, was replaced by the Monitoring Mechanism Regulation (MMR) in 2013 which in turn was replaced by the Governance Regulation.

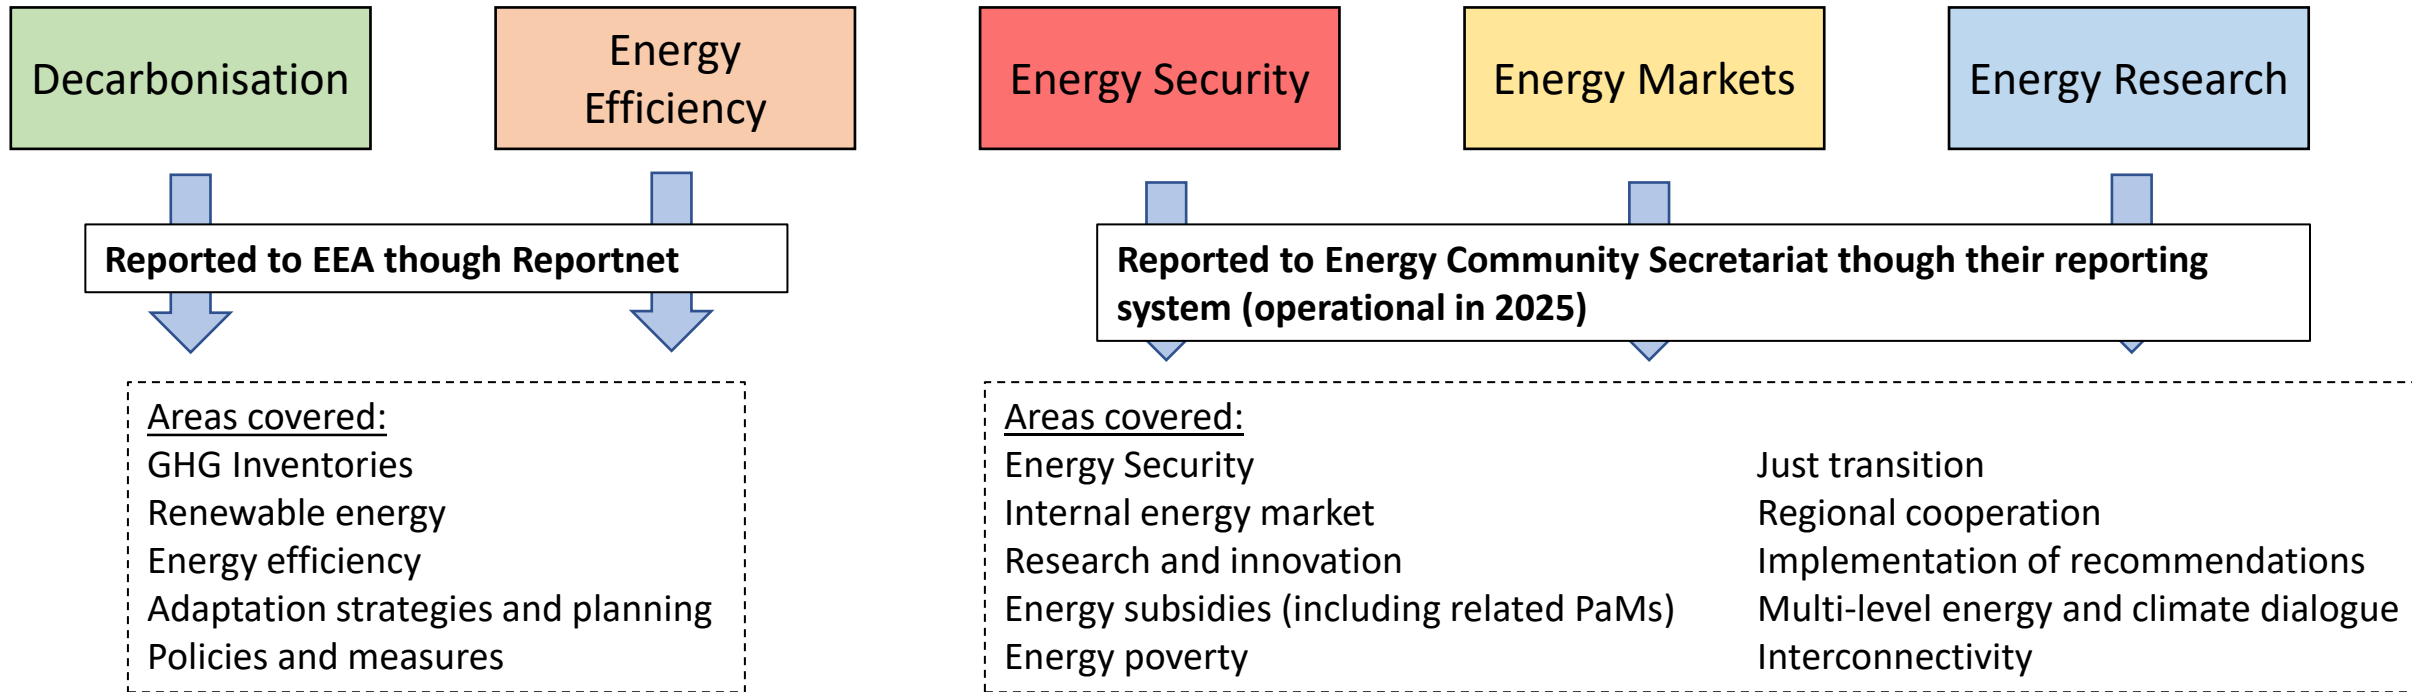

The EU 27 Member States report their climate and energy data, with 5 additional countries reporting parts of their data.

The Governance Regulation was adopted by the Ministerial Council of the Energy Community on 30 November 2021.

# Overview of the Adapted Governance Regulation

Stands on five pillars:

# Reporting obligations – first deadlines

2023

## 15 March (biennial)

- National systems for policies and measures and projections
- Policies and measures (GHG)
- National adaptation planning and strategies

## 31 July (annual)

- Use of any revenues generated from carbon price mechanisms

2024

## 15 March

- Significant updates on previously reported data

2025

## 15 March (biennial)

- GHG projections
- Final GHG inventories
- Integrated energy and climate progress reports, including information on RES and EE

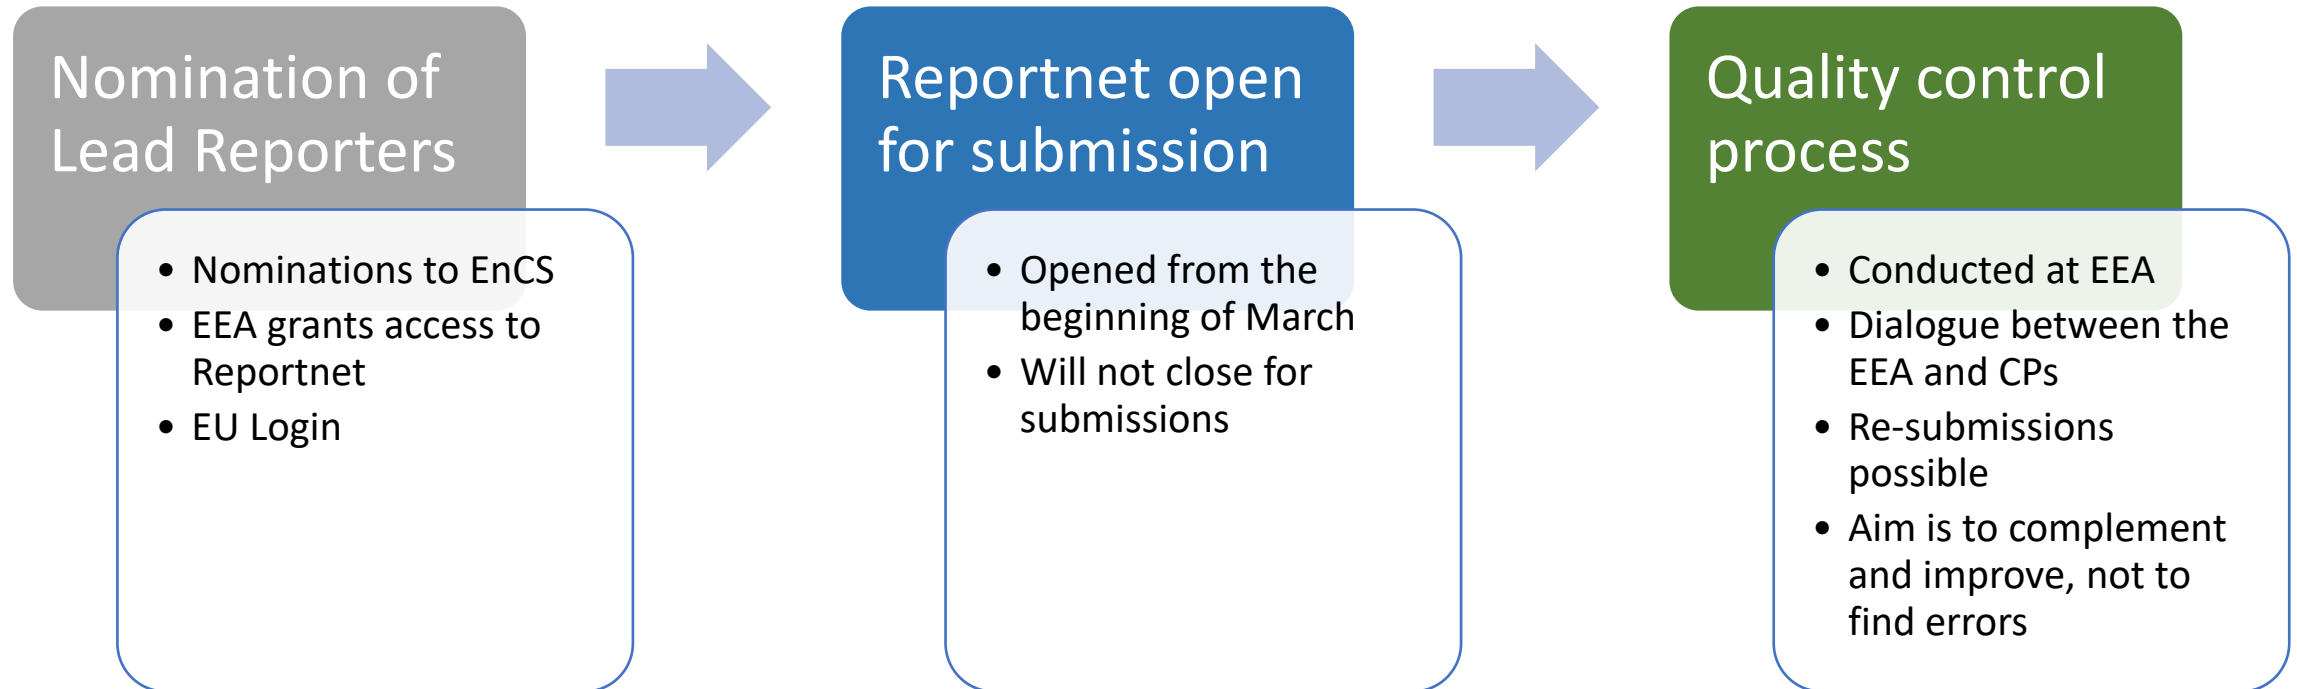

## 31 July (annual)

- Approximated GHG inventories

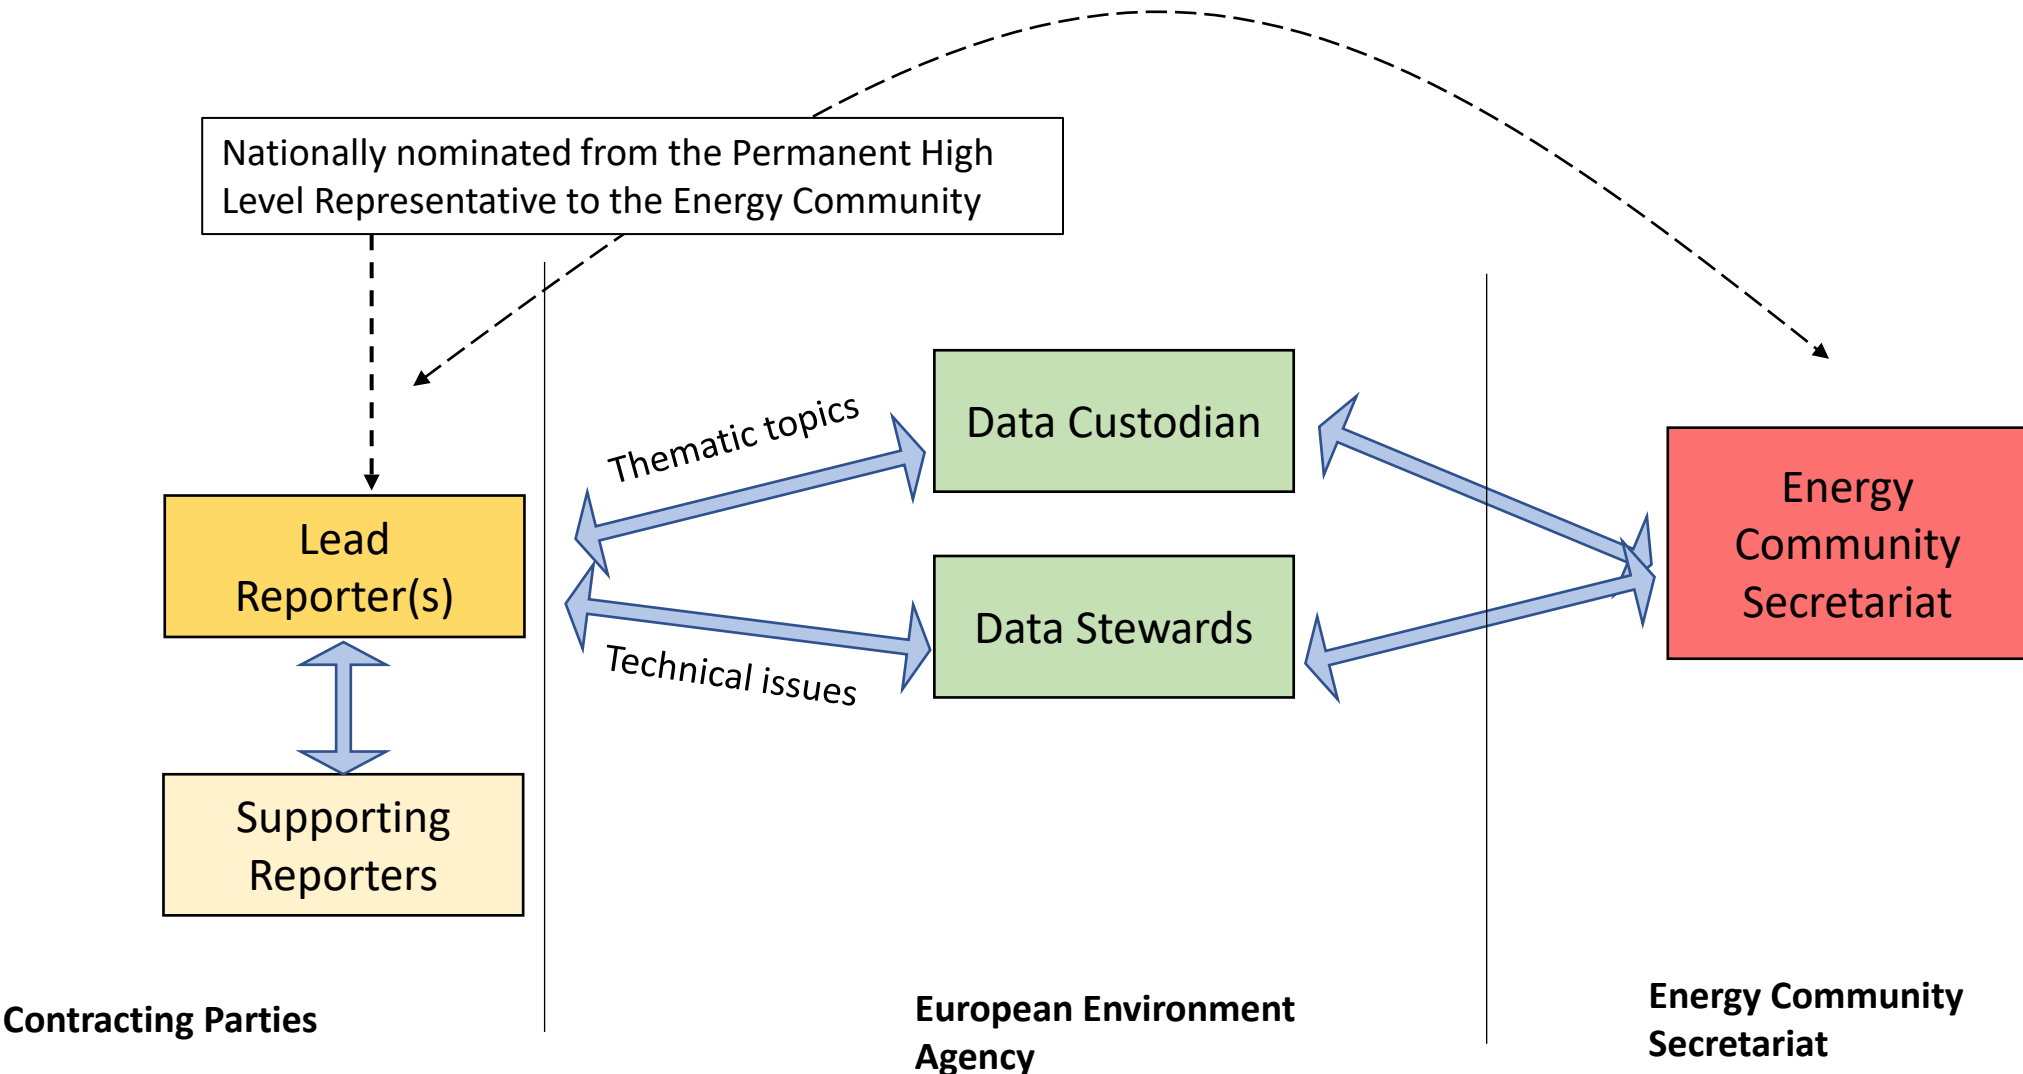

## 30 September (biennial)

- Support provided to developing countries

# Reporting process

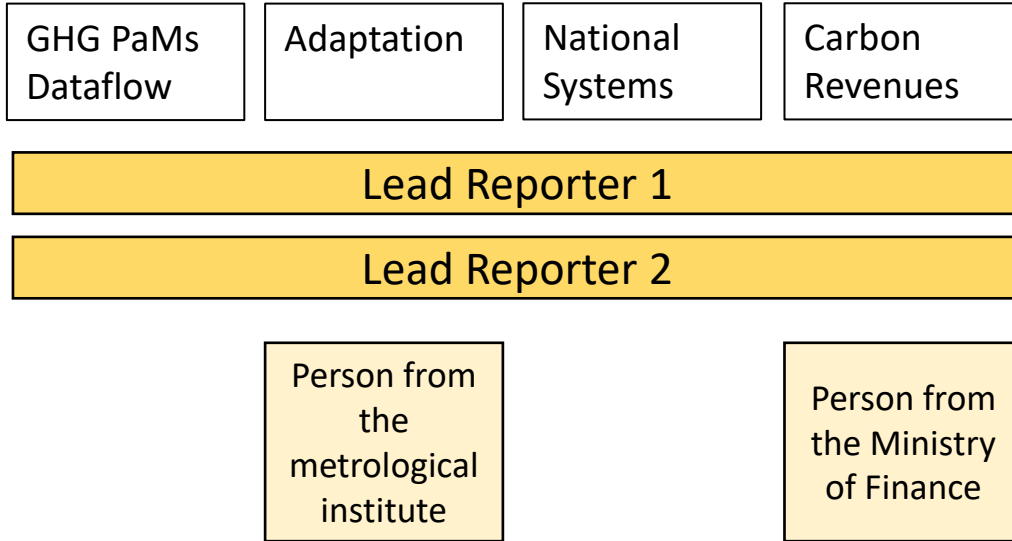

# Overview of roles from the different institutions

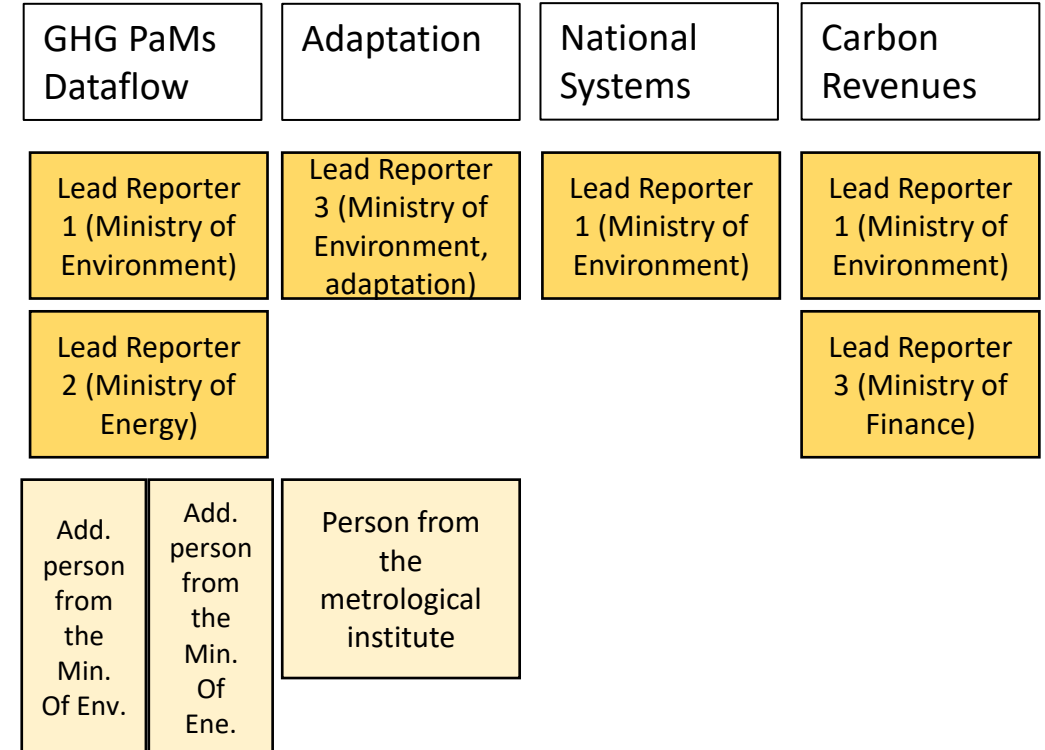

# Lead and Supporting Reporters - examples

## Scenario 1

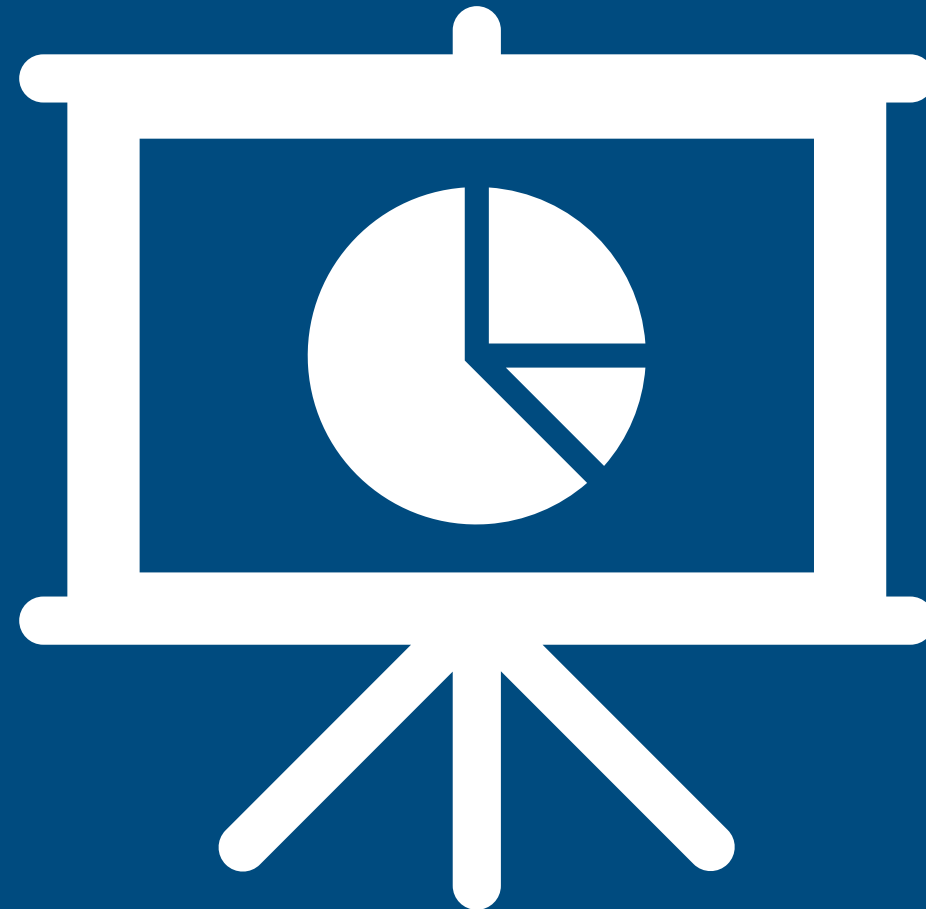

## Scenario 2

status

# Progress of Reporting

# Provision of technical assistance

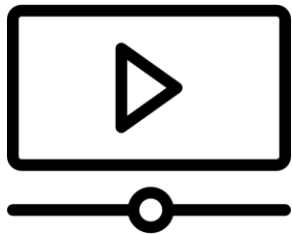

## Guidance documents:

National Systems and PaMs shared on the 4/5.

Adaptation about to be finalised  
Carbon revenues upcoming.

(MS versions of both documents are available)

## Guidance videos:

Available through our Youtube channel since 22/3.

3 videos: Introduction, National Systems, PaMs.

## Bilateral calls:

Spoken to several CP representatives in more personal settings.

Always available for more!

## Webinars:

Webinars on PaMs and National systems (12/6)

Webinar on adaptation (16/6)

Webinar on carbon revenues upcoming.

# Provision of technical assistance

## **In person provision of technical assistance:**

Offered to the five Western Balkans CPs with nominated lead reporters were sent in the beginning of June. Carried out in-person trainings in North Macedonia (27/6) and Albania (29/6), while Bosnia & Herzegovina has indicated interest at a later point.

## **Planned:**

Continue to offer this to the remaining CPs with nominated lead reporters. Offers to incoming lead reporters from the CPs will also be shared once there are nominations, and it is deemed useful.

Continued discussion with the CPs to see what type of technical assistance could benefit most.
