We must now work together to move into practical and effective implementation

- ▶ **We have talked to ministers and deputy ministers to facilitate early political engagements**
 - But during the assignment implementation phase, **EECG members must also keep the political level regularly updated** and flag to ECS and EBRD any possible slips and achievements
- ▶ **REEP Plus is a continuation of a successful programme that demonstrated results**
- ▶ Future results must come **significantly faster** and be even more effective
- ▶ **REEP Plus is not a typical TA programme – it is designed to lay the foundations for EE investment**
- ▶ Do not have the luxury to discuss laws and by laws endlessly without clear progress
