ENERGY TRANSPARENCY WEEK

08 - 12.10.2018

8 – 12 October 2018

Hotel InterContinental / Aloft Kyiv

Kyiv, Ukraine

SCOPE AND TARGET AUDIENCE

This series of trainings provides an introduction to the different aspects of transparency of information within the competitive and regulated energy markets. During individual classes provided each day, various issues of transparency will be examined across wholesale and retail electricity and gas markets, in tariff setting methodologies, in the approaches to infrastructure development regulation and in the upstream energy revenues management. In a pursuit to provide as much practical information as possible, the organizing team together with the tutors and lecturers prepared engaging workshops related to the topics offered each day.

These trainings are primarily aimed at policy makers and other stakeholders who are, or will be, responsible for the design and ensuring effectiveness of the energy markets and the regulated energy sectors in Ukraine, for developing new rules for liberalizing the markets of energy in Ukraine.
