28-th Energy efficiency coordination group

9.03.2022, Vienna

Katerina Bilbiloska, advisor for energy efficiency
Energy department, Ministry of economy
North Macedonia

contact: katerina.bilbiloska@economy.gov.mk

- **Metering and billing for electricity, gas and heating EED Art. 9-11**
 - Transposed mainly in Energy efficiency law (Art. 20-23) and Energy law
 - Fully transposition with Rulebooks for electricity, gas and heat supply rules
 - Harmonization with the amendments of EED to be defined
- **Heating and cooling Art. 14**
 - The Program for the realization of the energy development strategy consists comprehensive assessment of the potential for high efficient cogeneration
 - The assessment also include the identification of the most economically viable solutions, cost-benefit analysis, based on climatic conditions, economic conductivity and technical suitability.
 - The Program for realization of energy development strategy is prepared for adoption

- **Transposition of labeling framework**

- Rulebook on labeling of energy – related products is prepared
- Transposes 25 regulative and 1 directive
- Opinions and comments received from relevant stakeholders and public consultation held
- Adoption in the next period
