

# Project „Green Economic Development“

Arnesa Borcak, Energy and Environment Sector  
UNDP B&H

## About Project

## Partners on the project

- ✓ Ministry of Foreign Trade and Economic Relations of Bosnia and Herzegovina
- ✓ Environmental Fund of the Federation of BiH
- ✓ Environmental Protection and EE Fund of Republika Srpska
- ✓ Entity ministries of Physical Planning and environmental protection
- ✓ Entity ministries of Energy and mining
- ✓ Cantonal governments

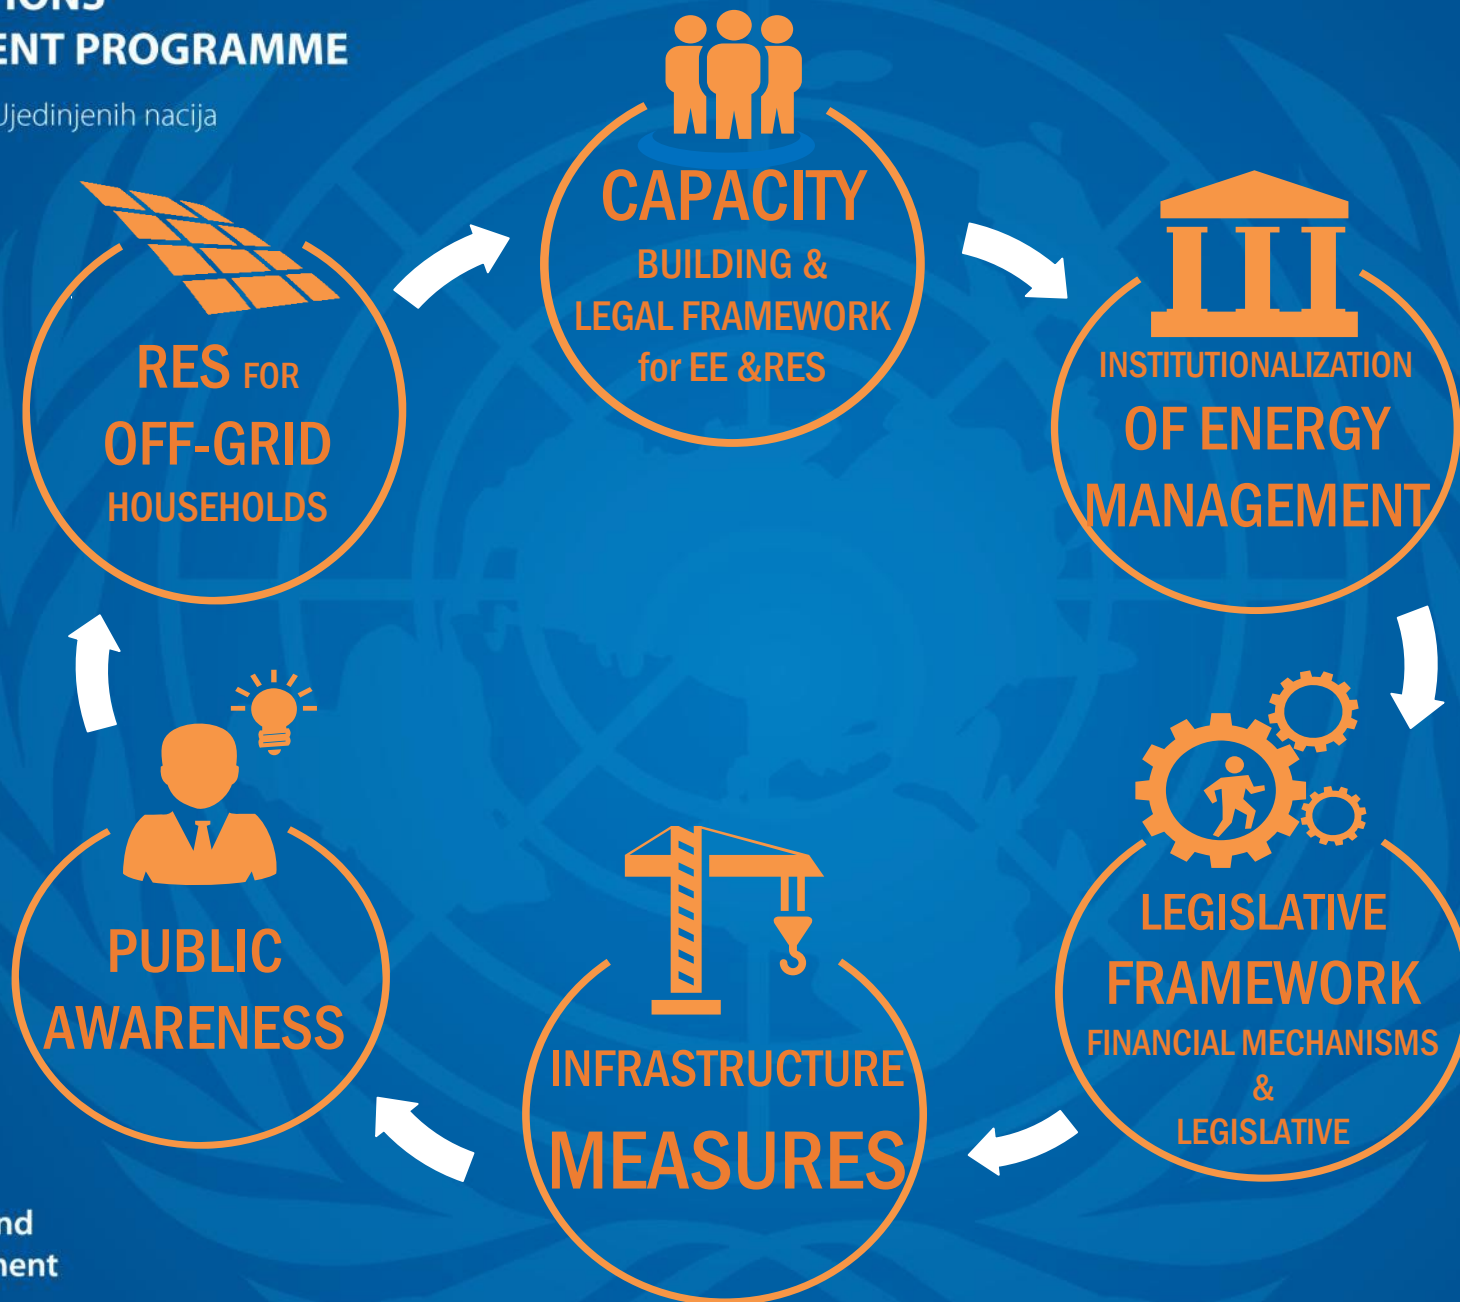

## Project primary goal

- Creating a favorable environment for financing EE and RES measures in BiH

## Project specific goals

- Create understanding within municipal authorities and various government levels in BiH on benefits of EE and RE projects.
- Institutionalize energy monitoring and reporting mechanisms / energy management at all government levels/all public buildings in BiH.
- Contribute to BiH's EU accession (EED, EPBD, and RES directive...).

## Linkages with EU Directives

- **EED**

### Article 5 - Renovation each year 1% of the total area of central governments buildings.

- a) Establish public building inventory
- b) Establish calculation baseline and define the annual goals for the reconstruction
- c) Creation of operational plans for the renovation of buildings owned by central authorities

- **EED**

### Measurement and verification (M&V)

- a) Annex V – Common methods and principles for calculating the impact of energy efficiency obligations schemes or other policy measures under Article 7(1), (2) and (9) and Article 20(6)
- b) Annex XIII – Minimum items to be included in Energy Performance Contracts

## Linkages with EU Directives

- **EPBD**

**Article 9 (3)**

- a) Definition of NZEB, reflecting their national, regional or local conditions, and including a numerical indicator of primary energy use expressed in kWh/m<sup>2</sup> per year.

**Article 5**

- a) Calculation of cost-optimal levels of minimum energy performance requirements

- **RED**

**Article 3**

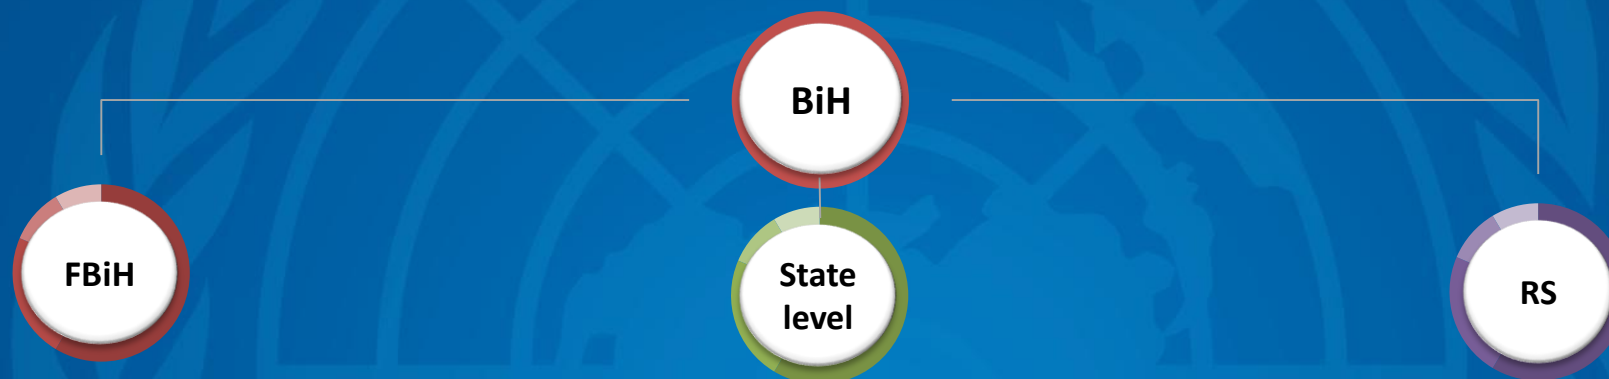

- a) National overall targets and measures for the use of energy from renewable sources

**Article 14**

- a) Information and training

# Institutionalization of energy management system

**Rulebook** on Energy Efficiency Information System in the FBiH

**Guidelines** for introduction of energy management system in FBiH with EM trainings

**Organizational scheme** of the EMS in the FB&H

**Decision** on the establishment of energy management system and information system of energy efficiency in institutions at the state level and mandatory data entry and regular reporting

**Organizational scheme** of the EMS in the B&H

**Rulebook** on Energy management system in RS

**Rulebook** on implementation of energy management training for energy managers – koordinatrors, energy managers in industry, energy managers and energy administrators

**Organizational scheme** of the EMS in the B&H

*Empowered lives.  
Resilient nations.*

Thank you!
