Commercial Quality in Energy Service Provisions Algerian case

- Karima SADOU -

MEDREG is co-funded by the European Union

MEDREG

Introduction

MEDREG is co-funded by the European Union

Introduction

- Consumer protection is a fundamental concern of public authorities.
- The public service of electricity and gas, as defined in Law n°. 02-01 of February 5, 2002, on the electricity and gas distribution by pipes, aims to guarantee the supply of electric and gas energy to all customers in the better conditions of equity, continuity, security, quality and equal treatment.
- The reforms initiated with the promulgation of Law n°02-01, assigned CREG with three main missions :
 - Realization and control of public service,
 - Advising the authorities on organization and functioning of the electricity and Algerian gas market,
 - Supervision and control of the respect of laws and regulations related to the electricity and the national gas market.

MEDREG

1) Regulatory framework governing quality of service

MEDREG is co-funded by the European Union

Law 02-01 of 5 February 2002

Law 02-01 of 5 February 2002 (https://www.creg.dz/Lois/Loi02_01fr.pdf), on the electricity and gas distribution by pipes, reinforces the general scheme of consumer protection, notably through :

- More transparency** (The regulatory texts define the responsibilities and the commitments of each operator to be followed and respected),
- Non-discrimination** (Connection, network access, equal treatment, ...),
- Dissemination of information** (Breakdowns, interruptions and scheduled maintenance,),
- Better support of consumer's interests** (Procedures on handling complaint, ...),
- Commitments on the quality of service** (Concession regime, performance indicators,...).

Main implementing texts

- Executive Decree No. 05-182 - of May 1, 2005** on the regulation of tariffs and the remuneration of the activities of transport, distribution and **supply** of electricity and gas.
<https://www.creg.dz/D%C3%A9crets%20ex%C3%A9cutifs/Decret%20ex%C3%A9cutif%20N%C2%B02005-182.pdf>
- Executive Decree No. 08-114 of April 9, 2008**, fixing the terms and conditions for the award and withdrawal of electricity and gas distribution concessions.
<https://www.creg.dz/D%C3%A9crets%20ex%C3%A9cutifs/D%C3%A9cret%20ex%C3%A9cutif%20n%C2%B02008-114.pdf>
- Executive Decree No. 10-95 of March 17, 2010** setting the economic rules for the rights of connection to networks and other actions necessary to meet customer demand for electricity and gaz.
<https://www.creg.dz/D%C3%A9crets%20ex%C3%A9cutifs/D%C3%A9cret%20ex%C3%A9cutif%20n%C2%B02010-95.pdf>

2) Commercial quality as seen by
the distributor –Concession-

MEDREG is co-funded by the European Union

Assessment of the public service obligation

- The public service is currently under concession regime throughout the whole country. Now Algeria counts 1 subsidiary company of the historical operator "Sonelgaz Holding" named "SADEG" in charge of distribution of electricity and gas.
- Specific standards concerning the quality of the supply and customer service as well as control, have been defined and concerned the following aspects :
 - Commercial (The customer credit period for each type of customer).
 - Financial (technical and non technical losses on Low and Medium Voltage and Pressure).
 - Technical (time and average frequency of outages related to distribution incidents).

Commercial quality of service parameters

In addition to the performance indicators set as part of the monitoring and control of the concession system, the distributor follows the following commercial parameters :

- Troubleshooting time (electricity and Gas).
- Customer connection time (simple connection (varies from 3 to 15 days) and extension of electricity and gas networks (varies from 18 to 106 days)).
- Complaints processing time (varies from 1 day to 15 days).
- Customer information (Procedures, Pricing, Breakdowns, Planned outages,).
- Advice and assistance (Subscription, Billing, Energy saving, Safety of indoor installations, ..).

Services provided to the customer

- Digitalization of network and customer (Remote control of medium voltage networks, Remote reading of MV meters,).
- Development of Close Relationship (creation of new districts and commercial agencies, consultancy offices, Organization of information and awareness campaigns,...).
- Introduction of new digital services:
 - Online invoice. <https://consulter-factures.elit.dz/>
 - Online payment of LV / LP invoices. <https://baridinet.poste.dz/sonelgaz>
<https://epayement.elit.dz/payementFacture.xhtml?sd=SDA>
 - Online submission and treatment for connection demands of Small and Medium-sized Enterprise / Small and Medium-sized Industries.
 - SMS information “A3limni”.
 - National Contact Center (Call Center 33 03).

MEDREG

3) Commercial quality as seen by CREG

MEDREG is co-funded by the European Union

CREG duties

The law 02-01 provides CREG an important role in safeguarding the consumers energy interests. In this context, CREG is responsible for :

- Controlling and assessing the public service obligations.
- Handling complaints and appeals of operators, network users and customers.
- Determination of tariffs.
- Publishing useful information for the defense of consumer's interests.

Setting up within CREG of two departments one dedicated to consumer protection and another one in charge of quality and public service

CREG achievement

- Approval by CREG of two procedures submitted by the distributors, one for handling complaints and another for connecting to the network (2013).
- Setting up within CREG an appeal procedure for unsatisfied customers of processing their complaint, by their distributor (2013).
- Conduct periodic audits to check compliance with connection procedures and handling of customer complaints.

CREG achievement

- Handling appeals .
- Organization of information days and meetings with operators, consumers and consumer associations (information on the reform of the sector, provisions dealing with their rights and obligations and relations with operators).
- Approval by the Minister of Energy of a list of the different services and price lists (customer connection, maintenance fees and penalties for interruption and restoration service .. etc..).
- Setting tariffs.

CREG achievement

- Prevention and awareness campaigns as regard the risks of bad use of energy (specially on electric shock and gas leak).
- Setting up its website where a special section is dedicated for consumers
 - Online appeal.
 - Listen Box Consumers (FAQ).
 - The electricity and gas bill calculator.
 - How to read invoice,...).
- Publishing useful information for the defense of consumer's interests.

The screenshot shows the official website of the Commission de Régulation de l'Électricité et du Gaz (CREG). The header includes the national emblem of the People's Democratic Republic of Algeria, the name of the commission in Arabic and French, and the Ministry of Energy. The main navigation menu has three items: 'Législation', 'Opérateurs', and 'Consommateurs'. The 'Consommateurs' menu is currently selected and displays a list of consumer-related topics such as rights and obligations, tariffication, state support, connection procedures, reading bills and meters, estimating bills, requesting information, filing complaints, safety advice, and consumer associations. Below this menu, a section titled 'DROITS ET OBLIGATIONS' is visible, along with a question about rights for owners and tenants, and a note about benefiting from connections.

Conclusion

- The rules and principles of consumer protection are described and defined in various regulatory texts.
- Consumers have the right to have easy and clear access to information relating to the services provided by their distributor, in particular on their rights and obligations. They must exercise this right by educating themselves.
- Distributor must respond as best as possible to the concerns and expectations of consumers, in compliance with regulations.
- CREG have to ensure, through the exercise of its legal powers, set out in Law No. 02-01, compliance with the regulations governing the customer-distributor relationship, so as to remind each of the two parties of their rights and obligations. This is why CREG must be endowed itself with more means and tools and enforcement power.

Conclusion

- The challenge of any National Regulatory Agency is to bring together the interests and expectations of consumers with the interests of the operators, in order to guarantee a quality public service that satisfy the consumer.

- The establishment of an effective system for handling and processing consumer complaints is very important to control the way in which the consumers and their requests are treated by the distributor.
