

# UKRAINE'S MOST URGENT ENERGY NEEDS

## TOP 5

- Power Transformers
- Gas Turbines
- Transformer Oil
- Current Transformers
- Vehicles (Auto loaders, Trucks, Cars, Excavators)

## Electricity

- Generators
- Transformer substations of medium voltage
- Cables, connectors, wires and clamps
- Circuit breakers
- Disconnectors
- Insulators
- Metering devices
- Inverters for solar PV
- Batteries

## Gas

- Electric gas switches
- Pipes
- Repair materials for the gas distribution system
- Welding equipment

## Other

- Boilers, district heating equipment
- Tools
- Linear armatures
- Traverses
- Reinforced concrete supports
- Conveyor belt
