

**REPUBLIC OF MACEDONIA
MINISTRY OF ECONOMY**

**STATUS OF TRANSPOSITION AND
IMPLEMENTATION OF
ENERGY EFFICIENCY LEGISLATION**

Goran Nikolovski
Valentina Stardelova
Xhavid Selami
Energy Department

Vienna
21-23 November 2017

ONGOING ACTIVITIES

- **Transposition of the Energy Efficiency Directive in The New Draft Law on Energy Efficiency**
- **Eco-labeling Directive is transposed in the Rulebook on labeling of the consumption of energy and other resources by energy-related products**
- **Government adopted Third APEE and has been submitted to the ECS in July 2017**

ONGOING ACTIVITIES (Sustainability Charter)

- **Removing legal and regulatory barriers through amending or developing new legislation that will enable and promote ESCO (“energy service companies”) contracts. (Swiss Contact)**
- **The GEF-UNIDO project will also provide assistance for decision-making regarding the provisions of Articles 7, 8 and 16**
- **Fully implementing the Energy Performance of Buildings Directive, especially the setting of minimum energy performance standards as a prerequisite for large scale buildings rehabilitation programmes (June 2017)**
- **Establishing well targeted programmes for public and residential buildings rehabilitation to the minimum energy performance and beyond, with particular focus on increasing the use of locally available renewable energy sources**
- **The MVP system is transferred to the servers of the Ministry of Economy.**
- **World Bank has expressed intention for technical assistance for establishing the EE fund.**

- First Annual Report under the Energy Efficiency Directive
