

REGC WORK PROGRAMME
what has been achieved, what lies ahead

6th RECG meeting

Vienna, 6 November 2018

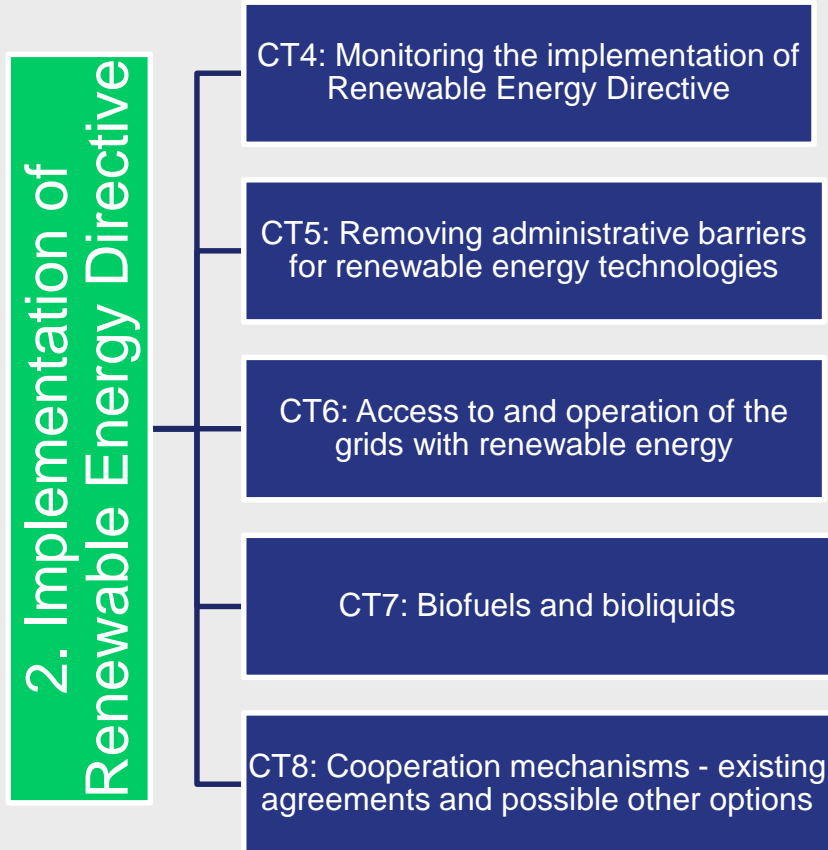

Activity 1: Reform of the support schemes

CT1: Market based support schemes

CT2: Financing renewable energy development

CT3: Citizen participation in development of renewable energy

- Amendments to energy/RE legislation to introduce renewable energy auctions – FYR of MK, MD, MO, UKR
- ✓ Policy Guidelines on competitive selection and support for renewable energy (with EBRD, IRENA)
- Contractual agreements on granting the support part of the auction docs
- ✓ Policy Guidelines on grid integration of prosumers (ECDSO-E)
- Promotion of citizen-owned renewable energy projects (BiH, RS)
- Legal recommendations for community energy in BiH acts;
- Business models for community projects (5 types in BiH)

- ✓ Second progress report on the promotion of RES submitted to the MC in 2017;
- Third Progress reports of CPs due by 31 December 2018;
- Administrative barriers have been addressed and the procedures were streamlined
- Connection procedures have been and balancing responsibility gradually introduced
- Slow progress on sustainable biofuels
- No progress on cooperation mechanisms due to uncertainty of energy data and no clarity on penalty mechanism for not reaching the target

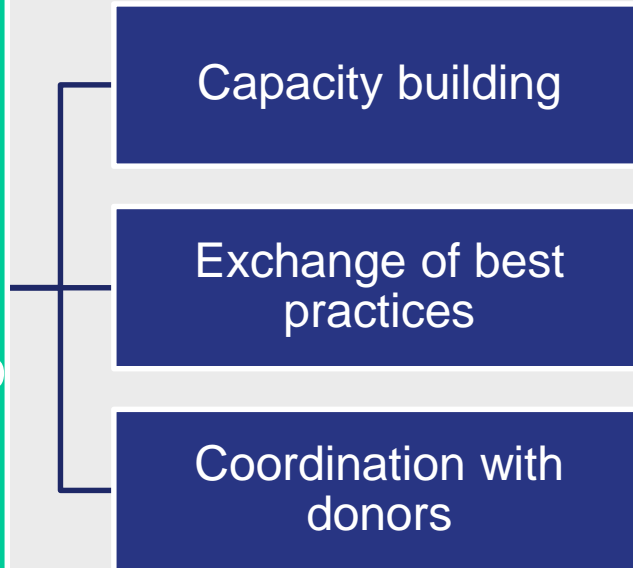

3. A framework to 2030 for Renewable Energy

CT9: Identification of renewable energy policy objectives to 2030 for the Energy Community

CT10: Proposal for a renewable energy framework to 2030

- Study for the 2030 targets has been launched, work to be finalised by June 2019;
- Upon the adoption by the EU of the recast of Renewable Energy Directive (RED II), the process of adaptation for the Energy Community will start

4. Horizontal and Cross-cutting measures

- Workshops organised in cooperation with IRENA in 2016, 2018
- Partnering and coordination of assistance to the Contracting Parties with EBRD, EIB, KfW, GIZ, GGF, the World Bank,
- Partner in AURES II project;

- Extension of the Work Programme until 2020;
- Adaptation of the task, milestones and deadlines for each core topic to match the current progress and to correspond to a realistic schedule;
- Strengthening the legal framework to enable successful auctions and bankable projects;
- Implementation of self-consumption
- Common activities with Working Group on Energy Statistics to ensure accurate and reliable biomass data with a view to determine sound basis for 2030 targets;
- Other proposals to be included?

The background is a satellite-style image of the Earth at night, showing city lights. Overlaid on this are numerous glowing blue lines that represent energy or data connections. These lines are curved and crisscross the globe, with some points of convergence that appear as bright blue starbursts.
