

REPowerEU Energy Package

10.06.22

Nicolas Kuen

DG ENER

Short-term measures

- An **EU Save Energy Communication** with recommendations for how citizens and businesses can save around 13bcm of gas imports
- **Rapid roll out of solar and wind energy projects** combined with renewable hydrogen deployment to save around 50bcm of gas imports
- Approval of first **EU-wide hydrogen projects** by the summer
- **Increase the production of biomethane** to save 17bcm of gas imports

Short-term measures

- **Common purchases of gas, LNG and hydrogen via the EU Energy Platform** for all Member States who want to participate, as well as Ukraine, Moldova, Georgia and the Western Balkans
- **New energy partnerships** with reliable suppliers, including future cooperation on renewables and low carbon gases
- **EU-coordinated demand reduction plans** in case of gas supply disruption
- **Fill gas storage** to 80% capacity by 1 November 2022

Medium-term measures to be completed before 2027

- Increased **EU-wide target on energy efficiency for 2030 from 9% to 13%**
- **Increase the European renewables target for 2030 from 40% to 45%**
- **New legislation and recommendations for faster permitting of renewables** especially in dedicated ‘go-to areas’ with low environmental risk
- **New national REPowerEU Plans under the modified Recovery and Resilience Fund** – to support investments and reforms worth EUR 300 billion

Medium-term measures to be completed before 2027

- Investments in an integrated and adapted **gas and electricity infrastructure network**
- **Boosting industrial decarbonisation** with around EUR 3 billion of frontloaded projects under the Innovation Fund
- New EU proposals to ensure industry has access to **critical raw materials**
- Regulatory measures to **increase energy efficiency in the transport sector**
- A **hydrogen accelerator** to build 17.5 GW by 2025 of electrolysers to fuel EU industry with home grown production of 10 million tonnes of renewable hydrogen
- A modern **regulatory framework for hydrogen**

Complemented by:

- Action Plan for Short Term Market Interventions and **Market Design**

- Strategy on **international energy engagement**

Thank you
