- **ACER powers?**
- **Regulatory decision making / approvals?**

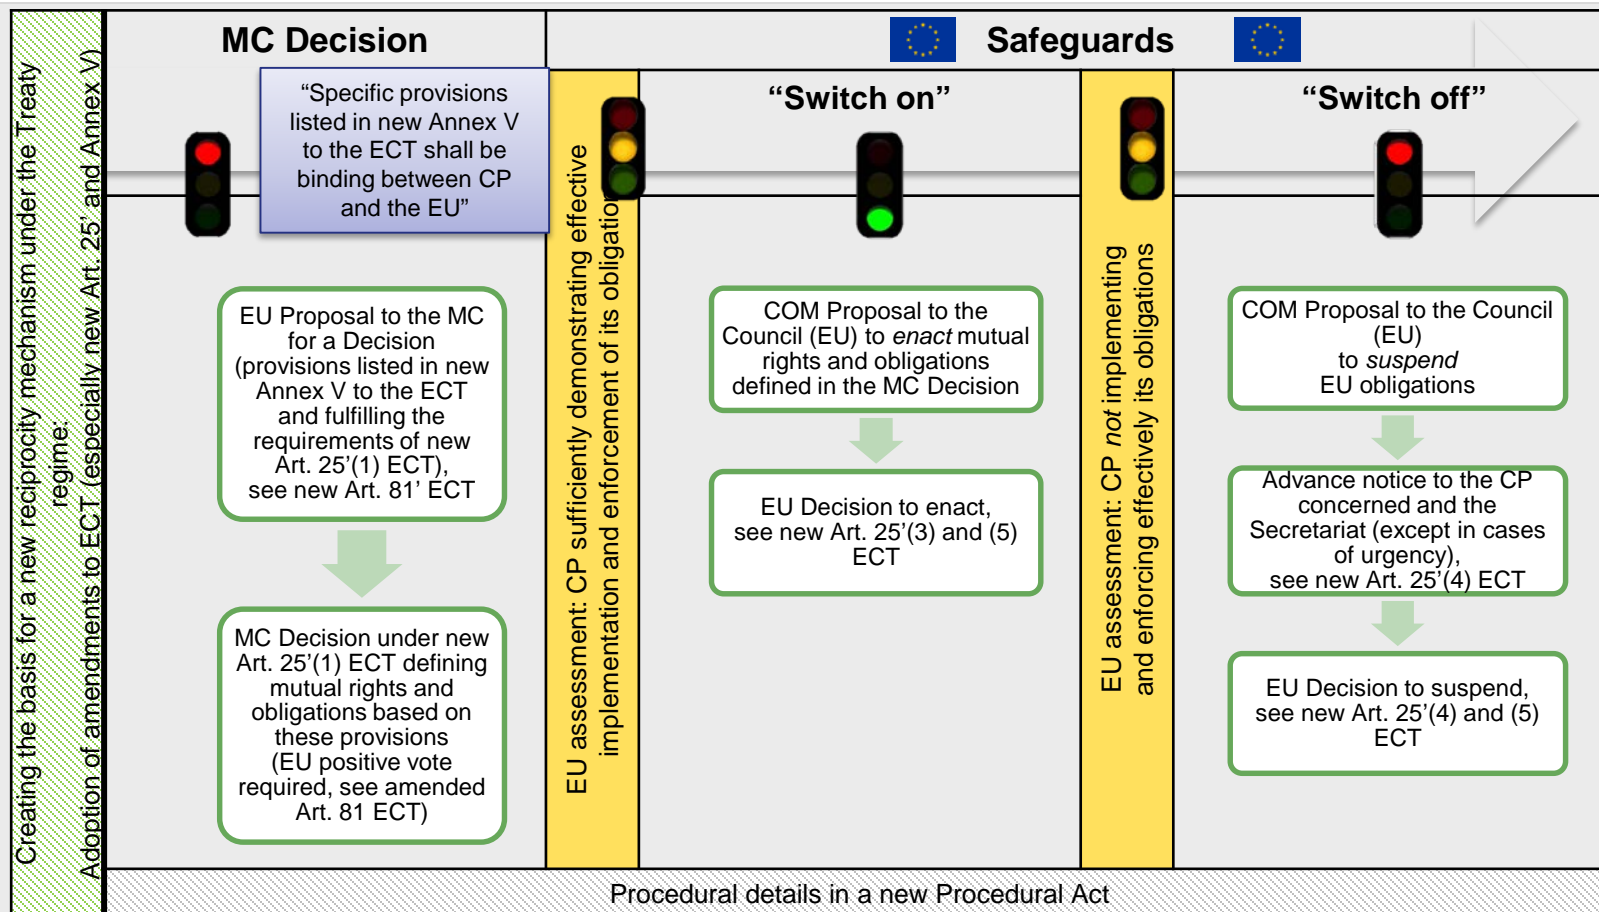

- ✓ **EU:** Art 43 re-cast ACER Regulation
- ▶ **EnC:** Energy Community Treaty clause: mandate to ACER & switch on (regulatory gap)

Article 43

Cooperation agreements

1. ACER shall be open to the participation of third countries which have concluded agreements with the Union and which have adopted and are applying the relevant rules of Union law in the field of energy including, in particular, the rules on independent regulatory authorities, third-party access to infrastructure and unbundling, energy trading and system operation and consumer participation and protection, as well as the relevant rules in the fields of environment and competition.
2. Subject to the conclusion of an agreement to that effect between the Union and third countries as referred to in paragraph 1, ACER may also exercise its tasks under Articles 3 to 13 with regard to third countries, provided that those third countries have adopted and apply the relevant rules in accordance with paragraph 1 and have mandated ACER to coordinate the activities of their regulatory authorities with those of the regulatory authorities of Member States. Only in such cases the references to issues of cross-border character shall relate to borders between the Union and third countries, and not to borders between two Member States.
3. The agreements referred to in paragraph 1 shall provide for arrangements specifying, in particular, the nature, scope and procedural aspects of the involvement of those countries in ACER's work, including provisions relating to financial contributions and to staff.
4. The Administrative Board shall adopt rules of procedures for relations with third countries referred to in paragraph 1 after receipt of a positive opinion by the Board of Regulators. The Commission shall ensure that ACER operates within its mandate and the existing institutional framework by concluding an appropriate working arrangement with ACER's Director.

Reciprocity

- ▶ [currently] for **EL GL and gas SoS only**
- ▶ **How to combine** individual switch-on and regional market coupling?
- ▶ **Decision making in ACER** – representation of CP NRAs?

- ▶ Timeline

The background is a satellite-style image of the Earth at night, showing city lights. Overlaid on this are numerous glowing blue lines that represent energy transmission paths, connecting various points across the globe.
