

A dark blue background with a glowing network of light blue lines and nodes, resembling a global energy grid or data network, overlaid on a faint map of Europe.

13th ECDSO-g Coordination Platform
5 July 2022, on-line

- 1) Please keep your **microphone muted** and **camera turned off**
- 2) In case of technical problems, please use the **chat function**, the Secretariat will try to help 😊
- 3) In case of comments & questions please use “**raise hand**” function (next to your name in the list of participants on the right hand side) or write your question using the **chat function** and wait until the Chair allows you to speak
- 4) When **taking the floor**, please **unmute microphone** and **turn on camera**

13th ECDSO-g Coordination Platform meeting, 5 July 2022

13:45-14:00	Connection to WebEx	
14:00-15:30	Part 1: Update on 2022 activities	
	Energy Community update <ul style="list-style-type: none">• new legislation• gas & decarbonization• Ukraine Support Task Force	ECS
	DSOs' activities / Tour de table	DSOs
15:30-16:15	Part 2: Way forward	
	<ul style="list-style-type: none">• IT platform update• Work plan 2022 revision	ECS, DSOs
16:15-16:30	Conclusions & Closing of the meeting	

Part 1: Update / 2022 Activities

Focus in 2022:

Security of gas / energy supply

Decarbonised future on temporary hold?

Support to Ukraine

Bosnia and Herzegovina	100%
Georgia	15%
North Macedonia	100%
Moldova	100%
Serbia	88%
Ukraine	0%

- Impact assessment for Contracting Parties in case of halt of the Russian supplies (also with ENTSOG)
- Risks per Contracting Party - Moldova most vulnerable
- Ukraine
- WB CPs
- Georgia low risk
- Infrastructure bottlenecks, demand response, potential alternative supplies; risks for electricity
- Regulatory set ups and measures to be implemented to mitigate risks
- Demand assessment (gas, heat, EL) under the Energy Platform/regional initiative

Transposition of Regulation 2017/1938 on gas SoS coincides with new storage amendment

Storage amendments mirror the EU (recently adopted) amendment

Matter of urgency

Filling targets for this autumn already proposed – (1 Sept, 1 Oct, 1 Nov 2022)
Serbia, Ukraine; sunset clause: 31.12.2025

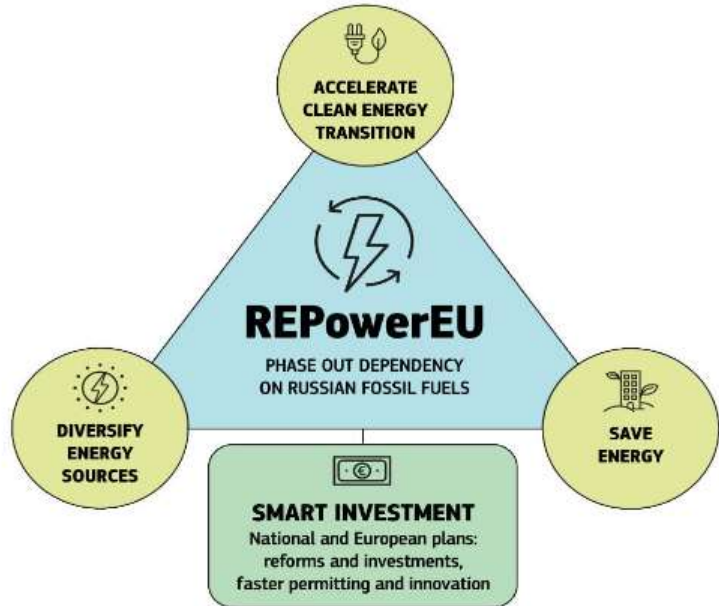

Derogation for Georgia, MNE, Kos*

CPs without storages – burden sharing mechanisms

Challenging dates: next weeks crucial

UGS operator certification – binding opinion of ECS, NRA to comply

RePowerEU *or how to ensure enough fossil fuels to survive next winter(s) without losing decarbonisation from the eyes*

Increasing Energy Efficiency target from 9% to 13%
Energy savings by change of customers behaviour

Joint Purchase Mechanism
EU External Strategy

“the EU will support Ukraine, Moldova, the Western Balkans and Eastern Partnership countries, as well as our most vulnerable partners. With Ukraine we will continue to work together to ensure security of supply and a functioning energy sector, while paving the way for future electricity and renewable hydrogen trade, as well as rebuilding the energy system under the REPowerUkraine initiative.”

Boosting renewables, biogases, hydrogen
A biomethane action plan

Ready4H2 Phase 2; ECS to continue participation

Part 2: Way forward

Biomethane

Hydrogen

Energy Units / Methodology bringing volumes to standard conditions

Smart metering / experience in Ukraine

Unbundling (updated report)

DSOs' role in proposed decarbonisation package

Methane emissions report

Regular (physical) meetings + Webinars

Meetings with other stakeholders

ECRB has Methane emissions in 2022 plan (to be presented in 2022)

Joint meeting ECRB – DSO-g

Biomethane
