## European Electricity Markets 2016 Trading via Exchanges & Market Coupling is a Reality

CACM =  
New form of effective  
C/B trading across EU

CACM =  
New dimension of  
regional cooperation

**In whole Europe?  
Not really...**

# Initiatives for electricity trading in SEE

SEE Initiative: Linking the initiatives

## EU-Side

### “CACM”-Market Coupling Development in the “11. Region”

11. Capacity Calculation Region 11: South-east Europe (SEE)

## EnC-Side

### WB6-Process – MoU on electricity trading

# Why no legal EU-EnC solution from the beginning?

## *Current Legal Problems of an EU-EnC Region*

- *Who decides on issues between EU and Enc borders?*
  - *Who takes action / acts as arbiter in case of diverging opinions?*
- => Mandate for **decision-body** needed (revision of EU & EnC law)

# Initiatives for electricity trading in SEE

## **SEE Initiative: Linking the initiatives**

# 11. SEE region includes already Energy Community

11. Capacity Calculation Region 11: South-east Europe (SEE)

11. Capacity Calculation Region 11: South-east Europe (SEE)

=> Legal obligation  
to link both regions

**Recipe:**

***Early Implementation***

## Purpose: Smooth alignment

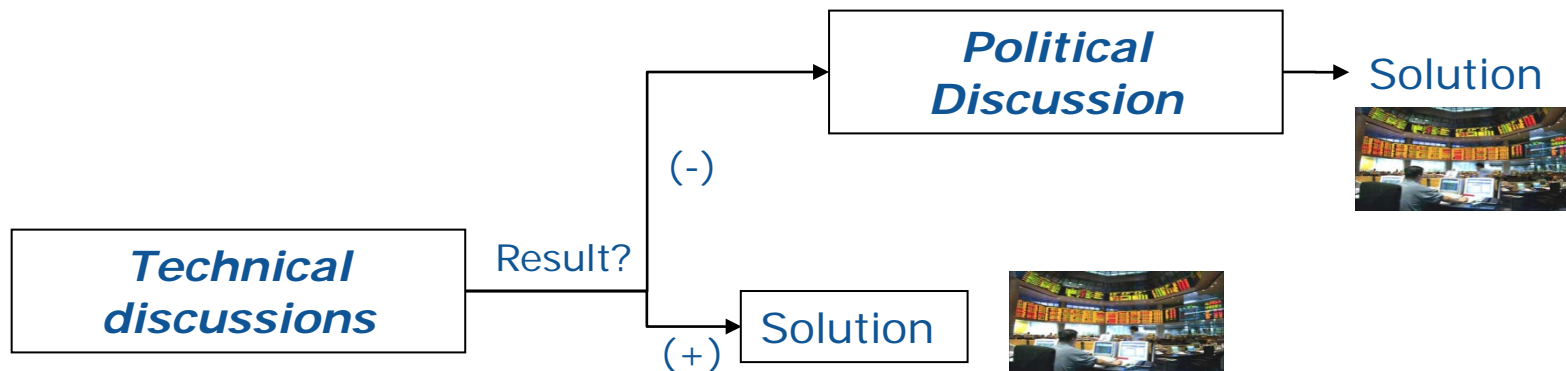

## Purpose: Smooth alignment

## Purpose: Smooth alignment

## Concept: Iteration of technical & political meetings (CESEC Model)

- **Definition of limited key targets**
- **Meetings at technical level**
  - EnC ↔ EnC
  - EnC and EU neighbours
- **Goal: Identification of key problems**
- **Political discussion - selected issues**
- **Meetings at political level**
  - Bilateral: EnC /COM ↔ CP/MS
  - Multilateral: EU/EnC / CP/MS
- **Goal: Solutions for key problems**
