

# **28th ENERGY EFFICIENCY COORDINATION GROUP MEETING**

## **ALBANIA**

# Metering

- The EE Law was amended in 2021 with new provisions on metering.
- The article 9 of the EED is **partially** adopted in Albanian EE law with the article 14.
- The amended law provides some of the legal basis needed on thermal energy consumed by district heating.
- In the case of Albania this article serves only as a legal basis if the district heating will be applicable in the future.

# Metering

- Individual metering of electricity in Albania has been established for some years now.
- The law no. 43/2015 “FOR THE ELECTRICITY SECTOR” prescribes the legal basis on individual meters
- Albania has implemented some pilot projects on smart-metering in towns like Kashar, Durrës and Vora in 2019.
- The process is still ongoing

# Billing

- The Albanian EE Law has not yet transposed the billing provisions of the EED.
- However, the AEE has initiated an Informative Billing Project, Awareness Campaign and Energy Efficiency Education and Training.
- This is a pilot project in Tirana and aims developing invoices which must contain comparisons in graphical form, of consumption in the billing period of the current year and consumption in the corresponding period of the previous year and must be based on current consumption.

# Heating and cooling

- The promotion of efficiency in heating and cooling article is partially transposed with the article 15/1 of the Albanian Law.
- The secondary legislation isn't prepared yet.
