

Energy Regulatory Agency – Montenegro

Regulatory Developments in the Montenegrin Energy Sector

45th ECRB meeting,
Web conference, 9 June 2020

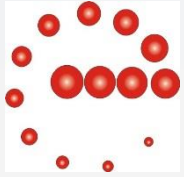

Energy Regulatory Agency – Montenegro

The COVID crisis – measures

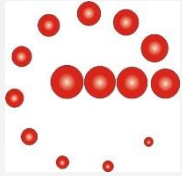

- Electricity utilities exempt from the fixed part of electricity bills for April, May and June industries that stopped their activities
- Double subventions for vulnerable customers for the duration of the Government measures
- Special measures taken to ensure stable supply of hospitals and medical centres

2 June it was declared the end of the epidemic in Montenegro

Energy Regulatory Agency – Montenegro

- The Ministry of economy prepared the draft of amendments to the Energy Law
- CACM will be transposed via separate regulation. The TSO is in charge for drafting this regulation and the Government to adopt it
- REMIT - Draft version of the law is in preparatory phase

Energy Regulatory Agency – Montenegro

Activities within the Agency

- The Financial report with the report of the work for 2019 was adopted and submitted to the Ministry of Finance
- In spite of the fact that Montenegro has no gas infrastructure, we are in the process of drafting bylaws

General conditions for gas supply were adopted at the beginning of 2020 ("Official Gazette of Montenegro", number 5/2020 of January 28th 2020),

Working on methodology for tso and dso

Energy Regulatory Agency – Montenegro
