1

- The major milestone for Georgia was the adoption of the new law on Energy and Water Supply. On the 20<sup>th</sup> of December, 2019 The Parliament of Georgia has adopted the Law on Energy and Water Supply and the Law on Renewable Energy Sources.
- The draft of law on Energy was prepared by energy community secretariat and is inline with energy community ACQUES.
- Electricity sector stakeholders – Ministry, GNERC, ESCO, TSO, market operator are developing Electricity Market concept design, which has to be adopted in few months by the Ministry.
- In Addition The Law on Energy Labeling was also adopted at the plenary session.
- Georgian Energy Exchange was founded, with 50-50% ownership of ESCO and GSE. Ex Head of GNERC – Irina Milorava was appointed as a CEO and Currently the organization is recruiting staff and is involved in developing Electricity market Concept Design.

- GNERC is working on certification rules for transmission system operators.
- By the end of 2019 GNERC has made some changes in Service Quality rules and in order to raise public awareness of Service Quality standards, we're introducing campaign - "Know your Rights". Within this campaign we are making some informative videos which are already spread in social media and soon will be broadcasted on TV.
- These animations have been produced with the assistance of the European Union within the TWINNING Project:

1. Net Metering:
