

Carbon Pricing Design for the Energy Community

Location: WebEx

Date and time: 26 March 2020, from: 10,00 to 16,00 hrs

Setting up: from 9,30 to 10,00 hrs

1. Introduction

| | | |
|------------------------|-------------|-----|
| Objectives and purpose | 10:00-10:15 | ECS |
|------------------------|-------------|-----|

2. Comparative analysis and evaluation of national carbon pricing schemes

| | | |
|---|---------------|------------------------------------|
| Analysis of carbon pricing schemes and MRV mechanisms currently applied in the Contracting Parties, and assessment of the readiness level for the implementation of such schemes | 10:15 – 10:50 | Consultant (Kantor and E3Modeling) |
| Evaluation of national and regional carbon pricing schemes in selected EU and non-EU countries, relevant for the potential implementation in the for a Energy Community Contracting Parties | 10:50 -11:30 | Consultant (Kantor and E3Modeling) |
| Open questions | 11:30-12:30 | Stakeholders |

3. Break 12:30 – 13:00

4. Baseline projection and policy context

| | | |
|--|---------------|------------------------------------|
| Presentation of the assumptions for the baseline projection of the energy system, the economy and the policy context | 13:00 – 14:00 | Consultant (Kantor and E3Modeling) |
| Presentation of the five policy design options Scenarios to retain for the impact assessment | 14:00 – 15:00 | Consultant (Kantor and E3Modeling) |
| Discussion Verification and validation of assumptions and scenario proposal | 15:00 – 16:00 | Stakeholders |
