Wrap up and conclusions	12:45 - 13:00	All
<i>13:00 – 14:00 Lunch</i>		
Presentation on “Measures to Increase Competition and Liquidity of Wholesale Electricity Markets, including on Power Exchanges”	14:00 - 15:20	EnCS
Discussion about risks in the period of market opening	15.20 - 17.00	

The EU4Energy Initiative covers all EU support to improve energy supply, security and connectivity, as well as to promote energy efficiency and the use of renewables in the Eastern Partner countries Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine. It does this by financing projects and programmes that help to reform energy markets and to reduce national energy dependence and consumption. Over the longer term, this makes energy supply more reliable, transparent and affordable, thus reducing energy poverty and energy bills for both citizens and the private sector.
