

## 14<sup>th</sup> Regional Exchange of Modelling Experts involved in the Development of Integrated National Energy and Climate Plans (NECP) in the WB6

### Agenda

#### Building up modelling capacity for integrated energy and climate planning

Virtual exchange via MS Teams, 16-Mar-22, 09:00-10:00 am CET

#### Context and purpose of the exchange

On 30-Apr-2020, Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH and the Energy Community Secretariat (ECS) initiated the first Regional Exchange of Modelling Experts to support the modelling work underlying NECPs of Energy Community Contracting Parties (CPs) in the Western Balkans. Since then, a series of exchanges has aimed to support the build-up of modelling capacity for integrated energy and climate planning.

#### Preparation of the upcoming exchange: **YOUR SUPPORT NEEDED!**

During our upcoming exchange on 16-Mar-2022, we will discuss the potential of a regional approach to providing data and assumptions. In order to prepare for the discussion, we would kindly ask the modellers and technical experts among you to fill the following survey until 14-Mar-2022. It should not take longer than 5-10 minutes.

The more details you will provide in this survey, the better and more concrete we can structure our upcoming discussion! <https://ec.europa.eu/eusurvey/runner/aff562e0-06b0-801d-d624-239506bbcc24>

Time	Item	Input by
09:00-09:20	Welcoming remarks <b>Presentation of survey results</b>	Anja Rosenberg/ ECS
09:20-09:55	Discussion <ul style="list-style-type: none"> <li>• Can and should parameters/ input data be compared across the region?</li> <li>• Do modellers from the region face similar challenges with data sources for certain parameters/ input data?</li> <li>• Would it be beneficial to provide regional guidelines/ a database or conduct surveys to overcome these challenges?</li> </ul>	Esad Smajlovic/ GIZ All participants
09:55-10:00	Closing remarks	Anja Rosenberg/ ECS
