PROGRESS AND PLANS FOR IMPLEMENTATION OF SELECTED KEY EED/EPBD ARTICLES AND NEEAPS:

- **Implementation of EED and EPBD:** progress but slower than required, despite the significant TA in place offered by EU, REEP, GiZ, UNDP, USAID etc.
- **1st NEEAPs under EED:** progress in preparation, but most CPs will not be able to adopt it before the deadline of 30 April 2019.
- **MVP for NEEAP reporting:** certain progress but concern that the process of incorporating and use of MVP is still slow; importance of harmonized approach and support by GIZ ORF-EE through MVP Plus Project (for Western Balkans).
- EECG thanked **GIZ ORF EE, EU/EBRD and EU4Energy** for their **support** to CPs to preparing the 1st EED NEEAP.
- **EC / ECS regular updates:** 2050 Long-Term Strategy, Governance Regulation and status with NECPs and 2030 targets in EnC.

20th EECG => focused reporting/discussion on 2030 EE targets and policy framework => NEEAP development and Articles 5 to 7, MVP (GOZ ORF)
