PECI Groups

With regard to energy infrastructure falling under the competence of national regulatory authorities, each Group shall be composed of representatives of the:

- Contracting Parties,
- national regulatory authorities,
- TSOs,
- Commission,
- Energy Community Secretariat,
- Energy Community Regulatory Board,
- ECDSO-E entity and
- either the ENTSO for Electricity or the ENTSO for Gas.

For the other energy infrastructure categories, each Group shall be composed of the:

- Commission,
- Energy Community Secretariat,
- representatives of the Contracting Parties and
- project promoters concerned.

Technical support to the Energy Community and its Secretariat to assess the candidate Projects of Energy Community Interest in electricity, smart gas grids, hydrogen, electrolysers, and carbon dioxide transport and storage, in line with the EU Regulation 2022/869

Expected start: **5 February 2024**

Expected end: **31 August 2024**

The overall objective of the project is to contribute to the market integration, security of supply, sustainability and competition of the electricity and hydrogen/smart gases markets of the Energy Community Contracting Parties, by selecting infrastructure projects for the PECE lists fostering the markets in these dimensions.

The specific objective of this project is the assistance to the Secretariat and the two Groups, established under the adapted and adopted revised TEN-E Regulation in the Energy Community, in compiling the preliminary list of PECE projects to be approved by the Ministerial Council, set up in accordance with the Annex III of the Regulation.
