

ACTION PLAN FOR THE IMPLEMENTATION AND EXPANSION OF THE PROSUMER APPROACH IN SERBIA UNTIL 2025

Project: Promotion of renewable energy and energy efficiency in Serbia
- Prosumer approach

Sprovedeno od strane:

ACTION PLAN FOR THE IMPLEMENTATION AND EXPANSION OF THE PROSUMER APPROACH IN SERBIA UNTIL 2025

Bottlenecks and issues have been identified and categorized into four different areas:

- Legislation and regulatory framework
- Construction of prosumer installations and grid connection
- Financing and Economics
- Dissemination and Training

ACTION PLAN FOR THE IMPLEMENTATION AND EXPANSION OF THE PROSUMER APPROACH IN SERBIA UNTIL 2025

Legislation and regulatory framework

ACTION	Lead responsibility	Other responsible parties	2022	2023	2024	2025
Changes to the Law on the Energy Efficiency and the Rational Use of Energy – definition of prosumers	MoME					
Changes to the Decree on the criteria for and conditions and method of true-up of charges and credits between prosumers and suppliers (art.26)	MoME					
Reconsideration of the position of the Ministry of Finance on the calculation of taxes and charges for prosumers in the electricity bill	MoME	MoF				
Modification of the methodology for the preparation of the electricity bill for prosumers following the update of the legal framework	EPS Supply	MoME				
Study introduction of third-party ownership over prosumer installation, modalities of virtual net-metering, and involvement of the renewable energy communities in the prosumer scheme	MoME	EDS EPS				
Introduce suitable models of third-party ownership over prosumer installation, virtual net-metering, and renewable energy communities in the prosumer scheme into energy legislation relevant to the prosumer approach in Serbia	MoME	Supply AERS				

ACTION PLAN FOR THE IMPLEMENTATION AND EXPANSION OF THE PROSUMER APPROACH IN SERBIA UNTIL 2025

Construction of prosumer installations and grid connection

ACTION	Lead responsibility	Other responsible parties	2022	2023	2024	2025
Follow the development of international solar PV technical standards and their development	ISS	MoME				
Consider the inclusion of relevant technical standards into the legal and regulatory framework for prosumers	MoME					
Study the Hosting Capacity of the distribution system of Serbia and assess options for hosting capacity enhancements to enable high penetration and integration of small-scale renewable energy installations	EDS	MoME				

ACTION PLAN FOR THE IMPLEMENTATION AND EXPANSION OF THE PROSUMER APPROACH IN SERBIA UNTIL 2025

Financing and Economics

ACTION	Lead responsibility	Other responsible parties	2022	2023	2024	2025
Implementation of pilot projects for different prosumer models – households, HOAs, and companies	MoME					
Assessment of economic and financial indicators for different prosumer models in Serbia	MoME					
Follow the developments related to the revision of the EU Energy Taxation Directive	MoME	MoF				
Collaborate with the Ministry of Finance on exploring the options to reduce taxes for electricity of solar origin	MoME/MoF	GoS				
Continuation of the financing program for residential rooftop solar PV investments and scaling up to a national level	MoME	MoF				
Support LSGUs to enhance the technical and quality criteria for the selection of companies delivering and installing rooftop solar PV systems (within the implementation of the financing program)	MoME	LSGU				
Simplification of the electricity bill for prosumers	EPS Supply	MoME				

ACTION PLAN FOR THE IMPLEMENTATION AND EXPANSION OF THE PROSUMER APPROACH IN SERBIA UNTIL 2025

Dissemination and Training

ACTION	Lead responsibility	Other responsible parties	2022	2023	2024	2025
Organization of the workshops for the representatives of LSGUs	MoME	LSGUs				
Awareness-raising campaign targeting the HOA managers to inform them about benefits and procedures for becoming prosumer in the multi-apartment building	MoME	Chamber of Commerce				
Develop partnerships and support energy cooperatives in the promotion of the prosumer approach	MoME	Energy cooperatives				

Capacity development of technical high school teachers

Capacity development of PV installers

ACTION PLAN FOR THE IMPLEMENTATION AND EXPANSION OF THE PROSUMER APPROACH IN SERBIA UNTIL 2025
