

WB6 Memorandum of Understanding (MC, BAL)

27 April 2016, 9:30-15:30

Energy Community premises – Am Hof 4, 1010 Vienna

Summary of Discussions

Participants (cf Annex) discussed the draft MoU and agreed on a final text version for signature.

The Secretariat underlined that deadlines agreed under the MoU shall not be considered agreement by the Secretariat on change of deadlines under the Berlin Process or Energy Community Treaty.

The delegation of Kosovo* (Ministry, NRA and TSO representatives) pointed out not to be able to sign the MoU prior to KOSTT starting operation as independent TSO, namely the start of implementation of the KOSTT-ENTSO-E Connection Agreement of 1 October 2015.

The delegation of Kosovo* in particular drew attention to a formal position of the Ministry of Dialogue of Kosovo* (cf attachment) and a therein included proposal for amendment of the MoU (cf point 3a, 3b) calling for *an urgent implementation of the KOSTT-ENTSO-E Connection Agreement of 1 October 2015 and calling upon Serbia to fulfil its obligations towards the 2013 Energy Agreements* (cf complete proposal: attachment point 3a, 3b).

The Serbian Ministry rejected the inclusion of the proposed amendment, noting though willingness to solve the pending finalisation of the KOSTT-ENTSO-E Connection Agreement in the relevant parallel negotiation process with the European Commission.

Albania supported the position of the delegation of Kosovo* and the importance of continuing related parallel settlement of the pending implementation of the KOSTT-ENTSO-E Connection Agreement, in particular having also in mind the impact on the Albanian market.

The Secretariat underlined the need for all parties to without further delay rectify existing breaches of the Energy Community Treaty and undertake outstanding market reforms; the Secretariat confirmed to continue providing support to this process.

*This designation is without prejudice to positions on status, and is in line with UNSCR 1244 and the ICJ Advisory Opinion on the Kosovo declaration of independence.
