

# WG RE Meeting

*Vienna, 07.03.2017*

## GIZ DKTI programme

# Development of a Sustainable Bioenergy Market in Serbia

## Structure of the programme:

### Policy advice

#### GIZ:

Support to harmonization of laws and regulations to EU standards

Support to policy definition and strategy implementation

### Biomass supply

#### KfW:

Advise to investments in district heating companies.

#### GIZ:

Support to the creation of a sustainable biomass supply chain

### Eff. firewood use in HH

#### GIZ:

Support to a promotion of efficient stoves and ovens

Advise to implement efficiency- and emission standards

### Project development

#### GIZ:

Advise to the implementation of cost efficient and innovative bioenergy projects

Technology and knowledge transfer

### BioRES

#### GIZ:

Support to the creation of regional Biomass Trade and Logistic centres.

Support local supply chains for biomass.

**Cross-cutting theme: Sustainability**

## Results achieved

- Regulatory and legal framework for implementation of bioenergy projects improved – German experiences transferred into the incentive system of the GoS
- The skills and capacities in 15 municipalities for the fuel switch to biomass strengthen - the final preparatory activities for the replacement of the fossil fuels in DHS
- Over 500 public officials (civil servants, decision makers, employees in public utility companies, municipal representatives) trained for more efficient usage of biomass
- ~5,000 households educated for more efficient usage of firewood and wood based appliances
- Development of biogas installation on 5 locations supported through process of education, TA and financial investment models

# Political dialogue

## Supporting Serbian Government through:

- facilitating regional and international **political dialogue** on bioenergy issues;
- promotion of favorable framework conditions emanating from Serbia into the SEE region

## Instruments:

- Bioenergy Partnership between Serbia and Baden-Württemberg
- Balkan Bioenergy Task Force (and regional cooperation)

# Balkan Bioenergy Task Force

Regional **platform** that enables  
permanent **dialogue** on key issues  
regarding **bioenergy** in Balkans
