

State Agency on Energy Efficiency
and Energy Saving of Ukraine

UKRAINE: SECONDARY LEGISLATION FOR **EED** AND **EPBD** IMPLEMENTATION

27th EECG Meeting
November, 17

ENERGY PERFORMANCE OF BUILDINGS DIRECTIVE (EPBD)

June – 2017

- **Energy Efficiency in Buildings Law:** adopted to meet basic EPBD requirements

October – 2020

- **ALL 14 bylaws** were successfully adopted

ENERGY EFFICIENCY DIRECTIVE (EED)

The process of implementing EED is still ongoing in Ukraine

October – 2021

- **Law «On Energy Efficiency Law was adopted** to meet basic EPBD requirements

- **43 bylaws** should be developed and adopted

October – 2021

- **Law «On Amendments to the Law of Ukraine “On combined production of heat and electrical energy (cogeneration) and use of waste power potential” on the development of highly efficient cogeneration»:** adopted in the first reading and is currently being prepared for a second reading

Today, the following secondary legislation drafts are among the most anticipated and important to be adopted under EED:

The adoption of the Energy Efficiency law paved the way for the development of **43 bylaws** necessary for the implementation of the Law

● **Second National Energy Efficiency Action Plan until 2030 (1st EED NEEAP)**

(prepared, submitted to the Government)

● **Long-term national strategy of thermal modernization of buildings until 2050**

(under preparation by MinRegion)

● **Other bylaws should be developed**

DEADLINE: 18 months

● **Financing of EED implementation**

Law «On Energy Efficiency» stipulates that the following state target programs must be developed and adopted

On renovation of the housing stock

On energy modernization of the DH companies (state or municipal property)

On modernization of the WS&S companies (state or municipal property)

DEADLINE: 3 months
