

EU4Energy

EU4ENERGY THIRD YEAR WORK PROGRAMME

Regional Activities | Armenia

- **RA 1** Regional/country specific meetings/workshops to discuss the process of identification of key energy infrastructure projects with participation of the short term experts and EPA Unit, IFIs, other donors and stakeholders is conducted to ensure training and experience exchange
- **RA 3** Launching the process related to identification of regional key energy infrastructure projects (including data collection)¹

The EU4Energy Initiative covers all EU support to improve energy supply, security and connectivity, as well as to promote energy efficiency and the use of renewables in the Eastern Partner countries Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine. It does this by financing projects and programmes that help to reform energy markets and to reduce national energy dependence and consumption. Over the longer term, this makes energy supply more reliable, transparent and affordable, thus reducing energy poverty and energy bills for both citizens and the private sector.

¹ The Process related to identification of regional key energy infrastructure projects was launched during the Second Year Regional Work Programme (May 2018 – April 2019). During the Third Year Regional Work Programme (May 2019 – April 2020) this activities could continue if the countries submit any additional Projects
