

EU4Energy

EU4ENERGY THIRD YEAR WORK PROGRAMME FOR GEORGIA

Area 1 Energy Efficiency

- **Activity 1.6** Support in development of Guidelines for inspections of heating and air-conditioning systems, incl. report templates (Article 14-18 of Directive 2010/31/EU)
- **Activity 1.7** Support in development of Regulation on regular inspection of heating systems (with the view on relevant standards) (Article 14-18 of Directive 2010/31/EU)
- **Activity 1.8** Support in development of Regulation on regular inspection of air-conditioning systems (with the view on relevant standards) (Article 14-18 of Directive 2010/31/EU)

Area 2 Electricity Market

- **Activity 2.1.14** Support in development of the regulation on protection of vulnerable customers in electricity sector
- **Activity 2.1.15** Support in development of the Standard terms and conditions for direct contracts on sale and purchase of electricity and procedure for its registration

Area 3 Gas Market

- **Activity 3.5** Support in development of the regulation on protection of vulnerable customers in natural gas sector
- **Activity 3.6** Support in development of Regulation on Imposition of Public Service Obligation(s) on Natural Gas Market Participants and Designation of the Natural Gas Supplier of Last Resort (Article 3 of Directive 2009/73/EC)

Area 7 Improvement of the institutional framework

- **Activity 7.1** Support in organization of High-level policy talks on gas and electricity markets, energy efficiency and independence of the energy regulator

EU4Energy

Area 8 Greater technical, institutional and administrative capacity

- **Activity 8.1** Capacity building activities through support in establishing and operation of the Working group for reforms in the energy efficiency sector/organisation of workshops/other activities to ensure experience exchange
- **Activity 8.2** Capacity building activities through support in establishing and operation of the Working group for reforms in the electricity sector/organisation of workshops/other activities to ensure experience exchange
- **Activity 8.3** Capacity building activities through support in establishing and operation of the Working group for reforms in the gas sector/organisation of workshops/other activities to ensure experience exchange
- **Activity 8.8** Establishing online capacity building in energy acquis related issues for public officials

Regional Activities

- **RA 1** Regional/country specific meetings/workshops to discuss the process of identification of key energy infrastructure projects with participation of the short term experts and EPA Unit, IFIs, other donors and stakeholders is conducted to ensure training and experience exchange
- **RA 3** Launching the process related to identification of regional key energy infrastructure projects (including data collection)¹

The EU4Energy Initiative covers all EU support to improve energy supply, security and connectivity, as well as to promote energy efficiency and the use of renewables in the Eastern Partner countries Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine. It does this by financing projects and programmes that help to reform energy markets and to reduce national energy dependence and consumption. Over the longer term, this makes energy supply more reliable, transparent and affordable, thus reducing energy poverty and energy bills for both citizens and the private sector.

¹ The Process related to identification of regional key energy infrastructure projects was launched during the Second Year Regional Work Programme (May 2018 – April 2019). During the Third Year Regional Work Programme (May 2019 – April 2020) this activities could continue if the countries submit any additional Projects
