

# UKRAINE PRIORITY NEEDS

## ENERGY, DISTRICT HEATING AND WATER SUPPLY INFRASTRUCTURE

FOLLOWING MARCH-APRIL ATTACKS

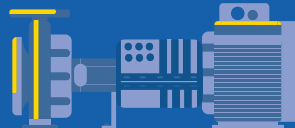

### MINISTRY OF ENERGY

Power Generation, Electricity Grids, Gas Network

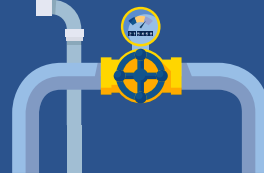

#### Power Generators

Generators turbines, gas piston and internal combustion engines  
 Generators, motors and associated equipment  
 PV Panels, inverters, batteries, associated equipment

#### Gas production and transport

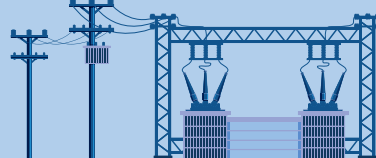

Gas network equipment - TSO/DSO

#### High voltage equipments

Switchgears, transformers and associated equipment  
 Circuit breakers and disconnectors  
 Surge arresters and insulators

Protection, control and IT systems  
 Power lines and cables, repair kits  
 Other various equipment  
 Construction vehicles and machinery

### MINISTRY OF INFRASTRUCTURE

District Heating, Water Supply, Transport

#### Power generators

Generators >1.000W-10W, motors and associated equipment  
 PV panels, inverters, batteries, associated equipment

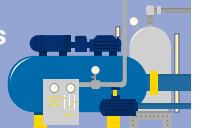

Switchgears, transformers and associated equipment  
 Power lines and cables

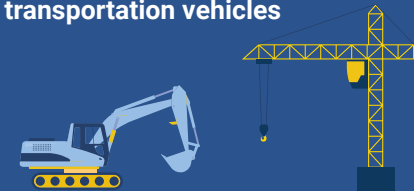

#### District heating

Boilers and boiler houses  
 Cogeneration units and equipment

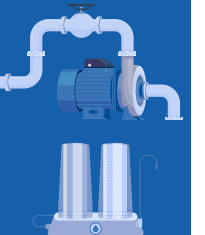

#### Vehicles

Construction vehicles and machinery  
 Public transportation vehicles

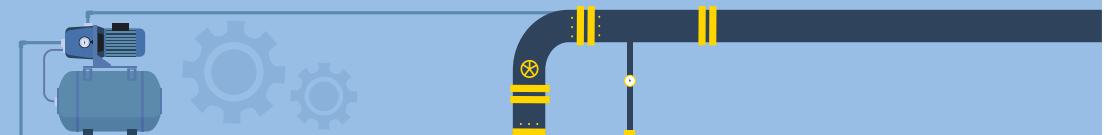

#### Water and sewage system

Metal and plastic/pvc water and sewage pipes  
 Water supply and Sewage equipment  
 Pumping equipment  
 Drinking water purification station

#### Other

Compressors

### PRIORITIES

Power generators  
 Gas turbines

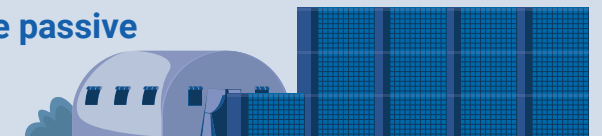

Distributed generation solutions

Mobile district heating solutions

Infrastructure passive protection
